

Mycostim

**Beneficial Mycorrhizae
Fungus for Plants**

**Includes Kelp
Extracts and
Humic Acid**

Colonizes the root zone to provide:

- *Enhanced Growth & Nutrient Uptake*
- *Resistance to transplant shock*
- *Vigorous Plants*
- *Stress Resistance*
- *Improved plant quality, yields, and vigor*

Net Weight 1 LB. (.45kg)

ORGANIC LABORATORIES, INC

*The World's Leading Producer Of
EnviroCare Pesticides & Fertilizers*

Mycostim

Beneficial Mycorrhizae Fungus for Plants

Contains beneficial root colonizing fungi

Mycorrhizae fungi colonize plant roots and provide a number of benefits to the plant. Mycorrhizae can significantly reduce loss and decline due to poor soil conditions, and can increase plant vigor & the ability to take up nutrients and water.

Directions for Use

For Flower Bed Preparation: Mix 1 cup of MycoStim with 1 gallon of water and apply evenly over 25 square feet with a sprinkler can.

For Vegetable Row Preparation: Mix 1 cup of MycoStim per gallon of water and apply evenly in 25 feet of seed row.

For Treating Seeds: Place enough MycoStim in with the seed and shake or stir to thoroughly coat the seeds.

For Transplants: Dust MycoStim onto the root ball and into the planting hole.

For Established Plants: Make a solution by mixing 1 cup of MycoStim per gallon of water. Punch holes into the root zone and pour MycoStim into the holes.

For Seeding Lawns: Coat the seed by thoroughly mixing 1 cup of MycoStim per 10 lbs. of seed.

ACTIVE INGREDIENTS

Beneficial rhizosphere microbes

% BY WEIGHT

8.5%

Glomus Intraradices	4 propagules per cc
Glomus Mosseae	4 propagules per cc
Glomus Aggregatum	4 propagules per cc
Rhizopogon Villosullus	264 propagules per cc
Rhizopogon Luteolus	264 propagules per cc
Rhizopogon Amylopogon	264 propagules per cc
Rhizopogon Fulvigleba	264 propagules per cc
Pisolithus Tinctorius	10,575 propagules per cc
Trichoderma Harzianum	15,865 propagules per cc
Trichoderma Konigii	15,865 propagules per cc

% BY WEIGHT

ALSO CONTAINS NON PLANT FOOD INGREDIENTS

8%	Humic Acids (derived from Leonardite)
7%	Sea Kelp Extract (derived from <i>ascophylum nodosum</i>)
76.5%	Cotton Seed Meal

Storage Conditions

Product is guaranteed effective for up to two years after date on package.

Store in a dry place under 140 degrees.
