

# GreenNcrease

6-0-0

Designed for use on turfgrass

## GUARANTEED ANALYSIS

Total Nitrogen (N) ----- 6.0%  
5.5% Ammoniacal Nitrogen  
0.4% Other Water Soluble Nitrogen  
0.1% Water Insoluble Nitrogen

Derived From: Condensed molasses and corn dextrose fermentation solubles, Ammonium sulfate.

FL License # F002072

- Keep out of direct sunlight during storage for extended periods.
- Do not mix with alkali such as lime or oxidizing agents; ammonia gas or other nitrogen containing gas may result.
- Conduct a jar test as needed to ensure compatibility with other materials.
- Store at temperatures above 32°F and below 95°F.

## DIRECTIONS FOR USE AND APPLICATION RATES

### SHAKE WELL BEFORE USE

GreenNcrease is formulated as a nutrient for foliar application. Use GreenNcrease to increase resistance by turf to abiotic stress such as heat and drought. GreenNcrease aids in the recovery of greens from ball marks, winter injury, and aerification. It is water miscible and non-toxic to plants when applied as directed. GreenNcrease is manufactured from a fermentation broth used to produce amino acids.

**Sprayer Applications:** Apply 14 fl. oz. of GreenNcrease with at least 2 gallons of water per 1,000 square feet of turfgrass. Apply during the entire season.

**For Best Results:** Repeat application every 2 weeks throughout the season. Apply early in the morning or late in the evening. Delaying irrigation and mowing 8 hours after application is recommended.

GreenNcrease is intended as a supplement to a regular fertilizer program and may not provide all the nutrients required for turf. Foliar fertilization with primary nutrients will not provide the quantities of nutrients required for normal plant growth. This product may cause foliar burn if applied in higher than recommended rates or concentrations. Use only as a supplement to a regular fertilization program.

For commercial use only

**CAUTION** Keep out of reach of children

Condition of sale: The information contained on this label is believed to be accurate. Buyer and user agree to accept all liability associated with handling, use, and disposal of this product.

2.5 Gallon (9.45 Liters)
