### DIRECTIONS FOR USE:

WARM AND COOL SEASON TURFGRASS	
Applications	Rates and Comments
Cool Season Turf	Low Range: 4-6 oz per 1,000 sq ft. Medium-High Range: 8-12 oz. per 1000 sq. ft.
Warm Season Turf	Low Range: 6-8 oz per 1,000 sq ft. Medium-High Range: 10-12 oz. per 1000
For Best Results:	Apply early morning or late afternoon and allow to dry on the leaf for a minimum 6 hours before irrigation or mowing. Apply every 7-14 days or as needed.

NURSERY AND ORNAMENTALS		
Applications	Rate	Rates and Comments
Foliar Feeding	2-4 Quarts	Mix with 100 gallons of water and spray to run-off
Soil Drench	1 Gallon	Dilute with 100 gallons of water and apply sufficient amount to moisten the root zone

#### CONDITIONS OF SALE - LIMITED LIABILITY - LIMITATION OF LIABILITY AND REMEDIES

Seller warrants that this product conforms to the chemical description as stated on the label. The product is reasonably fit for the purpose stated on the label when used in accordance with label directions and instructions under normal conditions of use. Insufficient control of pests and / or crop injury may result from the occurrence of weather conditions, the failure to follow the label directions, or good application practices, all of which are beyond the control of the seller. The seller makes no other warranties or representations of any kind, express or implied, concerning the product, including no implied warranty of merchantability or fitness for any particular purpose.

The exclusive remedy against the seller for any cause of action relating to the handling or use of this product is a claim for damage and in no event shall damages against the seller exceed the price of the product.

The seller offers this product and the buyer and user accepts it, subject to the foregoing conditions of sale and limitation of warranty, liability, and remedies.
