

SeaCal is an advanced form of foliar Calcium fortified with Liquid Kelp extracts and yeast extracts.

Kelp is a rich source of natural nutrients, amino acids and plant sugars that work together with calcium to build strong cell walls, increase tillering and help turf combat stress situations.

Yeast extracts have been noted for triggering plant's defenses against stress.

8% CALCIUM WITH SEA KELP & YEAST EXTRACTS

Guaranteed Analysis

Calcium(Ca).....8.0%
Derived from: Calcium acetate.

Non-Plant Food Ingredient

Sea Kelp.....10.0%
Yeast Extracts.....10.0%
Derived from: Sea Kelp (*Asophyllum nodosum*),
Yeast Extracts (*Saccharomyces cerevisiae*).

FEATURES & BENEFITS

CALCIUM ACETATE

- ◆ Hybrid organic-mineral calcium flushes sodium from the root zone.
- ◆ SeaCal has superior tank-mixing properties compared to other calcium products.
- ◆ Stays soluble for rapid foliar and root uptake.
- ◆ High foliar absorption.

KELP EXTRACTS

- ◆ Rich in compounds that play vital roles in protecting turf under stress.
- ◆ Promotes shoot and root growth by influencing antioxidants under low moisture conditions.
- ◆ Promotes a-tocopherol, an antioxidant implicated in the prevention of water-stress.

YEAST EXTRACTS

- ◆ Triggers and sustains turf's own built in defense system when challenged by environmental conditions favoring stress.
- ◆ Rich in biologically active amino acids.

SYNERGY

- ◆ Kelp extracts promote cell expansion and tillering.
- ◆ Calcium acetate builds strong cell walls and flushes sodium from the root zone.
- ◆ Yeast extracts create a stronger plant more resistant to stress.
- ◆ SeaCal ingredients all work together to produce higher quality and less problematic turf.

DIRECTIONS

<u>Turf Variety</u>	<u>per 1000 sq. ft.</u>	<u>Fairways per acre</u>	<u>Frequency</u>
Cool & Warm Season Turf	3 - 6 oz	1-2 gallons	7-21 days
